Date Issued: July 30, 2013

2013 Yukon River Summer Salmon Fishery News Release #80

Summer Announcement #73, Subdistrict 5-D Subsistence Fishing Closure

Districts Affected: Upper Yukon Area

The cumulative passage estimate of approximately 20,000 Chinook salmon at the Eagle sonar site through July 29 is well below the historical average of 38,000 for this date. Current projections indicate that it is unlikely that the escapement objective to Canada will be met. Therefore, efforts to conserve Chinook salmon for escapement will continue, and subsistence fishing in all portions of Subdistrict 5-D will remain closed for the remainder the run.

Subdistrict 5-D (from an ADF&G regulatory marker 2 miles downstream of Waldron Creek upstream to the U.S./Canada border including the Porcupine River and all other adjacent tributaries, which includes the communities of Stevens Village, Beaver, Venetie, Fort Yukon, Chalkyitsik, Circle, and Eagle):

Subsistence fishing is currently closed in all portions of Subdistrict 5-D and will remain closed until further notice.

During subsistence salmon fishing closures, fish wheels may not be operated and gillnets with a mesh size greater than four inches and a length greater than 60 feet must be removed from the water.

The subsistence fishing schedule and recorded fishery announcements will be available 24 hours a day at 1-866-479-7387 (toll free outside of Fairbanks); in Fairbanks, call (907) 459-7387.

If you have any questions regarding this report, please call the ADFG office in Fairbanks at 459-7274. The U.S. Fish and Wildlife Service can be contacted in Fairbanks at 456-0418.

This has been an announcement by the Alaska Department of Fish and Game in cooperation with the U.S. Fish and Wildlife Service.
